

BCOC (Bhanushali Chamber Of Commerce) is a non-profit organization, inspired by SKBSST and registered under Section 8 of the Companies Act 2013. Our vision is "Let's Grow Together," emphasizing the pillars of continuous learning, effective networking, and collaborative growth.

BCOC's success echoes in the triumph of two Digital Marketing batches in Mumbai , and now the momentum extends to Vapi. In a recent outreach initiative, we engaged with a diverse audience of over 120 individuals, including students, parents, and working professionals from Vapi, Valsad, Umargam, and Silvassa. The objective was clear — to shed light on the transformative impact of our Digital Marketing course, covering aspects of personal growth and its profound effects on businesses.

The interactive session was a journey into the multifaceted realm of Digital Marketing. We meticulously explored its myriad benefits, ranging from unlocking job opportunities to fostering freelancers, powering agency work, and fueling entrepreneurial dreams. The resonance was particularly strong among housewives, a demographic often overlooked, yet now actively engaging as some have already enrolled in the course, underscoring the inclusive appeal of BCOC's initiatives.

Beyond students, BCOC opens its doors to entrepreneurs and business professionals, offering a wealth of resources and guidance. Our community-based platform becomes the nexus for sharing insights on business ideas, navigating legalities, understanding taxes and GST intricacies, and more. This collaborative environment is a breeding ground for mutual support, whether one is embarking on a job search, navigating business development, or charting a course for career growth.

Join us at BCOC, where every connection is a catalyst, mentorship is a cornerstone, and shared growth is the ethos. Our journey is not solitary; it's a collective tapestry woven with threads of success, prosperity, and community-driven accomplishments.
